[] Individual reports will be updated periodically to reflect changes observed on subsequent photography.

The horizontal and vertical dimensions included in the report are computed values, as derived, and do not reflect numerical round-off. The horizontal dimensions are accurate to within plus or minus 5 feet or plus or minus 5 percent, whichever is greater. The vertical dimensions are accurate to within plus or minus 5 feet or plus or minus 5 percent, whichever is greater. These dimensions represent the best mensural data to date, and are to be considered the most accurate with respect to any conflicting data in previously published reports.
